REFRIGERATED DISPLAY - ISLAND

MODELS | CONV 1250, CONV 1850

XENIA SERIES – REFRIGERATED DISPLAY

The cooling island CONV is created for the sale of packaged foods such as sausages, delicacies or fruits and vegetables, juice, etc. There are in the dead section 2 unrefrigerated shelves and the bottom refrigerated tub. The backlight of the shelves and their staggering ensures perfect visibility of the displayed goods. It is produced in two modules which are usable individually with the sidewall, or built-in to the line.

SPECIAL FEATURES

- Around corner at bottom for easy cleaning
- Ventilated cooling system
- Electronic control system with temperature display
- Temperature sensor
- Automatic defrost
- Large display area
- Bumpers
- Deep tub
- Refrigerated island
- 2 rows of refrigerated shelves
- Head part
