KRISTINA SERIES – REFRIGERATED DISPLAY

Narrow refrigerated display cabinet KRISTINA ideally suited for use where space is limited. Dumper front glass is placed in the aluminium profile that fits in the massive aluminium bumper, the element of lighting in the upper part is also covered by aluminium profile. Under the stainless display area is a refrigerated understorage which can be used as a hand storage during the day. The cabinet has been manufactured with ventilated cooling and / or as ambient cabinet, for the sale of biscuits. There is a possibility to multiplex them and incorporate an intermediate service counter. Kristina display area is made of stainless steel. All the insulated parts are produced from polyurethane injected panels. Frontal curved glass is manufactured from tempered safety glass. Aluminium profile situated in front of cabinet ensures protection against damage.

SPECIAL FEATURES

- Curved front glass
- Opened up
- Around corner at bottom for easy cleaning
- Ventilated cooling system
- Electronic control system with temperature display
- Temperature sensor
- Automatic defrost
- Refrigerated storage
- T5 lighting
- Build-up in lines
- Stainless steel display area
